Abstract (en)

[origin: CN110042640A] The invention relates to a method for organizing laundry items 2 to be treated, which are provided with an identifier 6. The method comprising following steps: providing a storage container 1 for laundry items 2 to be treated, wherein the storage container 1 is assigned with a reader 3 with the identifier 6 which is arranged to read the identifier 6 when the laundry item 2 to be treated is introduced into the storage container 1, placing the laundry items 2 to be treated in the storage container 1 so that the identifier 6 of the laundry items 2 is read by the reader 3; preparing a table of contents of the laundry items 2 in the storage container 1 after introduction, wherein each laundry item 2 is assigned with important properties for the treatment; evaluating the table of contents with respect to one for at least one treatment lending program to be taken; and displaying a result of the evaluation on a display device 4. The invention also relates to a system 8 for organizing laundry items 2 to be treated provided with an identifier 6, and the system comprises a storage container 1, a reader 3 and a display device 4.
