Abstract (en)  
A connector plug assembly for use in power tool, comprising a tool connector and a plug connector, wherein the plug connector is arranged to detachably couple with the tool connector for supplying energy. The tool connector comprises at least one male terminal or at least one female receptacle on one end, wherein the tool connector is arranged to connect with a power tool on the other end. The plug connector comprises at least one male terminal or at least one female receptacle on one end, and a plug on the other end, wherein the plug is arranged to be inserted into a wall socket. The waterproof design and the limiting structure of the connector plug assembly protect tools from being damaged due to overloading, and users from significant danger such as electric shock.
