Abstract (en)

[origin: EP3515049A1] The present invention generally relates to a nameplate-button group for an outdoor intercom unit of an intercom and/or video door entry system and an outdoor intercom unit using the same group. In particular, the nameplate-button group (10) comprises a housing structure (12) defining at least a first seat (12a) configured to at least partially accommodate a button (13) and a second seat (12b) configured to at least partially accommodate a nameplate (14), in the second seat (12b) there being housed a box-like structure (17,18) for containing the nameplate (14) comprising a protective cover (18) having a box-shaped configuration with an open side and a bottom wall (17) configured for closing the open side of the protective cover (18) and is characterized in that the bottom wall (17) is at least partially made of an elastic material and is arranged internally to the second seat (12b) of the housing structure (12) so as to elastically interfere against at least two opposite sides of the second seat (12b).
