Abstract (en)
[origin: WO2018054699A1] The invention relates to a domestic dishwasher (1) with a washing container (2), a guide device (15), and a receptacle (12 to 14) for items to be washed, said receptacle being movable out of and into the washing container (2) of the domestic dishwasher (1) by means of the guide device (15). The guide device (15) has a running rail (18) and a locking element (24) which is designed to fix the receptacle (12 to 14) for items to be washed to the running rail (18) when the receptacle is moved out of the washing container (2) until the running rail (18) is moved completely out of the washing container (2) and which is designed to release the receptacle (12 to 14) for items to be washed when the running rail (18) is moved completely out of the washing container (2) in order to bring the receptacle (12 to 14) for items to be washed completely out of the washing container (2).
