Abstract (en)

[origin: WO2018050989A1] The invention relates to a system (1) for placing a protective strip (12) on an upper surface (11) of a fishplate (6, 7) provided on a first rail (3) intended for being buried, comprising: a frame (15); wheels (16-18), mounted on said frame and suitable for rolling over said rail (3); a dispenser (31) for said strip; a roller (34) for pressing the strip against said upper surface (11); and means (36) for securing said strip, preferably by gluing or welding, to the surface (11).
