Abstract (en)
[origin: WO2018054878A1] The invention relates to a screw compressor system (100) for a utility vehicle, comprising at least one screw compressor (10), at least one screw compressor drive and at least one control and/or regulation unit (110). Said control and/or regulation unit (110) is connected to the screw compressor drive and is designed and configured such that it monitors, when the screw compressor (10) is in operation, the ratio of idle time and switched on time of the screw compressor drive and this ratio controls and regulates to a predetermined range.
