Abstract (en)

An adaptation kit (1) for flushing valves of flush tanks, in particular ceramic flush tanks, comprising a support (4), extending along an axis (A) and shaped so as to receive and support a flushing valve (2), and a set of two or more adapter elements (5A, 5B), having respective drain portions (40A, 40B) different from one another, shaped to be joined to respective different flush tanks, and respective fastening members (6) for selectively fastening one of the adapter elements (5A, 5B) to the support (4) so that they are interchangeable on the support (4).
