Abstract (en)  
[origin: WO2018060208A1] The invention relates to a grate (6) for a grill (2), comprising a retainer element (38) and a plurality of bars (40) which are held by said retainer element (38) so as to lie parallel and at a predetermined distance from one another and which support the food to be cooked, above a heat source, each bar (40) comprising a main part (48) made of a ceramic material, and having a heat intake side (8) that can face the heat source, and a heat output side (10) that lies opposite said heat intake side (8), wherein the main part (48) of each of the bars (40) is covered, at least on the heat output side (10), with a coating (54).
