Abstract (en)

[origin: WO2018059725A1] The invention relates to a method for controlling an access authorization and/or drive authorization for a vehicle, wherein - a wireless connection is established between a mobile communication unit (1.1) and a vehicle-side control unit (1.2) when the mobile communication unit (1.1) is at a specified distance from the vehicle, - the mobile communication unit (1.1) transmits authorization data (B) in order to grant the access authorization and/or drive authorization to the vehicle-side control unit (1.2), and the vehicle-side control unit (1.2) receives and checks the authorization data (B), and - the access authorization and/or drive authorization is/are granted when the authorization data (B) is successfully authorized by means of the vehicle-side control unit (2). According to the invention, the authorization data (B) is only transmitted by the mobile communication unit (1.1) when a specified or specifiable tapping gesture is entered on the mobile communication unit (1.1) and detected by same after the connection between the mobile communication unit (1.1) and the vehicle-side control unit (1.2) has been established.
