Abstract (en)

[origin: WO2018065717A1] Electromechanical pressure sensor system, in particular microphone type, comprising: an electromechanical transducer, signal processing means, a substrate (1) for receiving at least one support (20, 30) of the electromechanical transducer and/or signal processing means, a protective cover (40) arranged on the upper face (3) of the substrate (1), the support (20, 30) of the electromechanical transducer and/or signal processing means being housed in at least one cavity located on the lower face of the substrate.
