Abstract (en)
[origin: WO2018069846A1] The invention relates to a cleaning device for cleaning a disposable or reusable wet-shave razor having a shaving head, the cleaning device consisting of a housing and of a rinsing means for rinsing the shaving head of the wet-shave razor. The invention provides for the housing (3) to contain a supporting and cleaning unit (10) with a support (9) for the shaving head (N2), wherein the supporting and cleaning unit (10) comprises one or more rollers (11), which are arranged on a pin (12) and can be made to rotate such that, by virtue of the roller (11) rotating, the striking elements (15) arranged on the circumference of the roller (11) strike against the blade/blades (N3) of the shaving head (N2).
