Abstract (en)

[origin: WO2018069855A1] The object of the invention is xanthohumol or its physiologically acceptable salt or a molecular complex or a metal complex for use in the treatment, prophylaxis or prevention of the haemorrhoidal disease or other diseases of the anal area and in the care of the skin around the anus. The invention also relates to a composition for use in the treatment, prophylaxis or prevention of the haemorrhoidal disease or other diseases of the anal area, as well as in the skin care around the anus, containing the active ingredient and at least one physiologically acceptable excipient or any carrier, which as an active component comprises xanthohumol or its physiologically acceptable salt or a molecular complex or a metal complex.
