Abstract (en)

[origin: WO2018069276A1] The invention relates to a battery assembly (70), in particular for a motor vehicle which can be driven electrically, in particular for a motorcycle, preferably for a motor scooter (10), said battery assembly comprising: - at least one battery housing (21); - at least one battery (90) which is preferably rechargeable; - at least one detachable mechanical locking device (91) for connecting the battery housing (21) to a unit to be provided with electrical energy, in particular for connecting to an electric motor scooter (10); and - at least one support device (400) which is designed so that it can be folded out and/or swiveled out and/or extended.
