Abstract (en)  
[origin: WO2018108577A1] The invention relates to a print head (20) for applying a coating agent to a part, in particular for painting a motor vehicle body part with a paint. According to the invention, the print head is designed in such a way that paints can be changed during the coating operation and the print head can be rinsed with a rinsing agent when paints are changed in order for coating agent residues to be rinsed out of the print head.
