Abstract (en)

[origin: WO2018073551A1] The present invention relates to a chemical composition characterized in that it comprises: - the molecule A or a physiologically acceptable salt thereof, and/or: - the molecule B or a physiologically acceptable salt thereof, said molecule A having the following formula: and the molecule B having the following formula: the molecule A or a physiologically acceptable salt thereof being biologically active and stimulating immune activity, the molecule B or a physiologically acceptable salt thereof being biologically active and stimulating immune activity .
