Abstract (en)  
[origin: EP3536892A1] Apparatus for the production of enhanced panels (70) which comprises a pressing machine (12) to press an enhancing covering sheet (60) onto blank panels (50) where an adhesive substance is present, to obtain enhanced panels (70) and a positioning station (16), upstream of the pressing station in a direction of feed (Y), provided with at least one transport tray (18). The apparatus also comprises a conveyor (24) to transport, in said direction of feed (Y) or transversely thereto, the transport trays (18) on which groups of blank panels (50) are positioned, at least from the positioning station (16) through the subsequent pressing station (14).
