Abstract (en)
[origin: EP3540103A1] In a draw texturing machine including a pin-type twisting unit, versatility is improved and yarn threading can be performed irrespective of the proficiency of an operator. The following members are provided: a setting unit 31 which is configured to set a set value regarding a high rotation number for yarn production and a set value regarding a low rotation number lower than the high rotation number, in regard to the rotation number of a pin 41 of the pin-type twisting unit; and an operation unit 32 provided for switching the rotation number of the pin 41 between the high rotation number and the low rotation number.
