Abstract (en)

[origin: WO2018113993A1] The invention relates to a method for producing sensor structures and cut-resistant structures in a surface element (1) by means of a warp knitting machine or a Raschel knitting machine. Sensor filaments (2a, 2b) as a sensor structure and cut-resistant filaments (3a, 3b) as a cut-resistant structure are incorporated on the same side of the surface element (1).
