Abstract (en)

An installation structure (1) for sanitary fixtures, in particular urinals, extends substantially along a longitudinal axis (X) and comprises a single central upright (2) extending along the axis (X), and at least one crosspiece (3) transversal to the upright (2); the upright (2) being provided with an axial length adjusting system (4), which allows the length of the upright (2) to be adjusted axially (X) along the axis.
