Abstract (en)

The present invention is provided with: a base plate (3) to be fixed to an indoor wall surface; a front panel to be fixed to the base plate (3); and a detachable fixing unit (7) that is provided between the top part of the base plate (3) and the top part of the front panel. The fixing unit (7) is provided with: a recess (8) that is provided in the base plate (3), is depressed downward, and in which an insertion hole is formed; and claw parts (9) provided in the front panel and inserted into the insertion hole to advance into and engage with the recess (8). The recess (8) has a bottom surface (8a) that can be felt between the claw parts (9) inserted in the recess (8).
