Abstract (en)

Provided is an indoor unit for an air conditioning device, the indoor unit being provided with: a base on which an indoor heat exchanger is installed and which has formed therein a water flow passage (5) for receiving drain water dripping from the indoor heat exchanger; and a drain pan (7) for receiving water conducted from the water flow passage (5) in the base. The drain pan (7) is provided with a protrusion (10) at a location onto which water dripping from a gutter (5a) for the water flow passage (5) drips. The protrusion (10) is provided with a vertically extending vertical section (10a) and laterally extending shoulders (10b).
