Abstract (en)
[origin: WO2018094481A1] Set for installing hair extensions, wherein the set comprises a plurality of connecting elements and at least one extension element, wherein each of the plurality of connecting elements comprises a tubular element provided on an inner side with an anti-slip layer and provided on an outer side with a first magnet, wherein the connecting elements can be connected to respective locks of hair of a person by positioning the tubular element around the locks of hair, and wherein the extension element comprises a strip to which proximal ends of the hair extensions are connected, and wherein the strip farther comprises a plurality of second magnets which are compatible with the first magnets of the connecting elements so that the extension elements can be connected via the magnets to the locks of hair of the person.
