Abstract (en)

[origin: WO2018095677A1] The invention relates to a removal tool (1) for a filter insert (70) of a liquid filter (90). The removal tool (1) comprises a first arm (10), which extends along a first axis (A1) and a second arm (20), which extends along a second axis (A2). The first arm (10) has a first hook (11), which protrudes substantially transverse to the first axis (A1) of the first arm (10). The second arm (20) has a second hook (21), which protrudes substantially transverse to the second axis (A2) of the second arm (20). The first arm (10) and the second arm (20) are connected to each other by a rotating joint (30).
