Abstract (en)

[origin: WO2018101875A1] An arrangement for attaching at least one accessory (160; 164; 166; 168) to a table (3) is disclosed. The table (3) is of the type which comprises a table top (2) and a table stand (1) with a supporting body (10), where the table top (2) is supported by at least a first surface (131, 131') of the supporting body (10). The arrangement has an accessory holder (140; 142; 144; 146; 148) for the at least one accessory (160; 164; 166; 168). The arrangement also has one or more engagement members (121, 122, 121', 22') provided on a second surface (132, 132') of the supporting body (10) of the table stand (1). The second surface (132, 132') faces in a direction different from a direction 10 in which the supporting body (10) supports the table top (2). The one or more engagement members (121, 122, 121', 22') is/are adapted for attaching the accessory holder (140; 142; 144; 146; 148) to the supporting body (10) of the table stand (1). The arrangement moreover has anchoring means (150; 153; 154-155; 156-157; 158) for anchoring the accessory holder (140; 142; 144; 146; 148) to the supporting body (10) of 1 the table stand (1). In a normal operating position of the table (3) with its table stand (1) standing on a horizontal floor or ground, the first surface (131, 131') of the support body (10) faces upwards towards an underside of the table top (2) and the second surface (131, 131') of the support body (10) faces downwards towards the floor or ground. The first surface (131, 131') and the second surface (132, 132') of the support 20 body (10) are opposing top and bottom sides of a plate-shaped structure (114, 114') of the supporting body (10).
