Abstract (en)

[origin: WO2018103931A1] Binder for injection molding composition comprising: - from 45% to 50% by volume of a polymer base, - at least 34% by volume of a mixture of waxes or a mixture of wax and palm oil, - and from 11% to 16% by volume of a surfactant, wherein the polymer base contains copolymers of ethylene and methacrylic or acrylic acid, or copolymers of ethylene comprising a maleic anhydride or a mixture of these copolymers, and also polyethylene, polypropylene and an acrylic resin, the respective amounts of the components of the binder being such that, added together, they do not exceed 100% by volume.
