Abstract (en)
[origin: WO2018103967A1] The present invention relates to an oven (1) comprising an oven cavity (2) wherein the ingredients to be cooked are placed; a body (3) in the form of a box with the front side open that surrounds the oven cavity (2); a panel (4) that is disposed on the body (3); a steam generator (5) that is disposed on the body (3); a water tank (7) that is disposed on the body (3) and that enables water to be delivered to the steam generator (5) by means of a water delivery line (6), and an opening (8) that is disposed on the panel (4) and that provides access to the water tank (7) wherein a motor (9) is disposed on the body (3), and enables the water tank (7) to be passed through the opening (8) and moved outwards from the body (3).
