Abstract (en)

[origin: WO2018103912A1] The invention relates to a spark plug electrode (2) with an electrode base (10) and an electrode tip (9) which comprises an electrode core (11), an electrode shell (12) surrounding the electrode core (11) and a connection area (13) for connecting the spark plug electrode (2) to another spark plug component, the connection area (13) being on the electrode base (10), and a material (17) of the connection area (13) and a material (14) of the electrode shell (12) are different.
