Abstract (en)

[origin: WO2018134631A1] The invention relates to a furniture combination having a table (1) and a box-shaped furniture carcass (2), wherein there is a support device (19), which supports a table leg (4), which is led through a furniture plate (14) of the furniture carcass (2), laterally against the furniture carcass. The support device (19) has a frame (20), which can be inserted into an opening (18) of the furniture plate (14). At least one support jaw (28) having a jaw body (28a) is provided within the frame (20), which is supported on the frame (20), on the one hand, and on the table leg (4), on the other hand.
