Abstract (en)

[origin: CN210391166U] The utility model relates to a clamping rod and a rail traffic tool. Wherein the clamping rod (1) is used for fixing a hinge in a rail traffic tool; the clamping device is characterized in that the clamping rod (1) is provided with a first clamping jaw (2) and at least one further second clamping jaw (3), and at least one of the clamping jaws (2 and 3) is arranged on the clamping rod (1) in a movable and lockable mode so as to clamp the clamping rod (1) and a carriage (10) of the rail traffic tool.
