Abstract (en)
[origin: EP3557707A1] The present invention discloses a structure for fixing graphite sheets and insulation gaps. The structure comprises housing, electrodes, springs and fixing caps, wherein the housing is configured to receive a stack of graphite sheets and insulation gaps stacked in combination, both ends of the housing are provided with threads; the fixing caps match with the housing and are to be screwed tight onto the housing; the electrodes are to be located at both ends of the stack of graphite sheets and insulation gaps; and the springs are to be located between the electrodes and the fixing caps.
