Abstract (en)  
[origin: WO2018114387A1] A clear antiperspirant stick formulation and a method of making the formulation. The formulation comprising antiperspirant actives selected from any known actives, and particularly aluminium chlorohydrates or zirconium salts. The formulation also comprising a gelling agent being a hydrocarbon-polyether-polyamide-polyether-hydrocarbon block copolymer, and a liquid vehicle and/or solvent. The formulation may be used in conventional antiperspirant dispensing containers.
