Abstract (en)

[origin: WO2018115252A1] The invention relates to a fluid filter, having a filter housing, which has: a first filter housing part, a second filter housing part, a fluid inlet, a fluid outlet, a fluid drainage opening, and a first tubular filter element support structure; a fluid filter element, having a filter medium, a first annular end cap sealing the filter medium on a first side, a second end cap sealing the filter medium on a second side and a first tubular filter element support structure; and a filter system, having a fluid filter and a fluid filter element, which each enable improved operation.
