Abstract (en)

[origin: WO2019157245A1] The present disclosure provides pharmaceutical and nutraceutical compositions and methods for the treatment of mitochondrial disorders. The pharmaceutical or nutraceutical compositions include a stabilized sulforaphene, such as sulforaphene-cyclodextrin complex, that increases the efficacy, biological activity and stability of isolated sulforaphene. The present disclosure also includes the use of stabilized sulforaphene as an effective therapeutic agent for the treatment of mitochondrial disorders, such as mitochondrial myopathy.
