Abstract (en)
[origin: CA3041317A1] Shower tray (1) for installation on two vertical walls (15, 16) which extend essentially perpendicularly to one another, together form a corner (12) and are clad with tiles (14) separated from one another by horizontal joints (13), said shower tray (1) having a flat, one-piece formed plate element (2) with an underside (3), an upper side (4) which forms a tray surface and defines a plate thickness (S) together with the underside (3) and at least three end faces (5, 6, 7, 8, 11, 18) which connect the underside (3) of the plate and the upper side (4) of the plate to one another and of which two extend perpendicularly to one another, outwardly projecting fastening projections (10) being provided on the two end faces (5, 6) which extend perpendicularly to one another, and the maximum overall height (H max) of the shower tray (1) corresponding to the maximum plate thickness (S max).
