Abstract (en)
[origin: CA3049663A1] A wall construction (1) for a building and a method for manufacturing same are described, the wall construction (1) comprising a wooden structural frame (3), the structural frame (3) comprising at least vertical studs (5) which are fixed, at their end portions, to plates (7) at the top and bottom, and the structural frame (3) constituting at least a portion of a wall that has an external side and an internal side, the external side of the structural frame (3) being provided with a vapour barrier (9). The wall construction (1) may be manufactured by means of at least one module element (10).
