Abstract (en)
[origin: EP3567161A1] A plug for installation of wired sensor track connectors, including a through body (1) and a plug socket (2) having at least four connectors, wherein the body (1) is provided with a base to be placed in a detachable manner on a centering element (4) configured as an angled profile made of a load-bearing plate and an adjusting plate (6) perpendicular to the load-bearing plate. A frame protrusion (7) is formed on the front wall of the body (1). Parallel starter guides are provided on both sides of the body base. A semi-circular cable conduit is formed in the middle of the load-bearing plate of the centering element (4), wherein parallel resting guides are formed on both sides of the conduit. An adjusting cut-out (11) having a shape adapted to the frame protrusion (7) is provided in the adjusting plate (6).
