Abstract (en)
[origin: EP3567189A1] An arrangement in a fence structure, comprising at least of vertical posts (3) at a distance from each other and of wall structures (1) fitted in between the vertical posts (3) and connecting the vertical posts (3). A wall structure (1) fitted in between two sequential vertical posts (3) has been supported at least on one side by fastener elements (4a) on the vertical posts (3) and aligned in the direction of the vertical posts (3) with the fastener elements being fitted to the vertical posts. Each fastener element (4a) is comprised of a compressive element (4f), which for its part has been arranged to hold one end of a wall structure (1) in connection with one vertical post (3).
