Abstract (en)
[origin: EP3567190A1] An arrangement in a fence structure, comprising at least of vertical posts (3) at a distance from each other and of wall structures (1) fitted in between the vertical posts (3) and connecting the vertical posts (3), and in which fence structure the wall structure (1) fitted in between two vertical posts (3) has been supported on the vertical posts (3) by at least the fastener elements (4a), which are essentially parallel to the vertical posts (3), and which have been fitted to the vertical posts (3) by at least on one side of the fence structure. On a vertical post (3) where there are two fastener elements (4a) on at least one side of the wall structure, the space in between the fastener elements (4a) has been covered by an elongated cover element (12) that is essentially parallel to the vertical post (3).
