Abstract (en)
When a first layer (10) is viewed in a stacking direction, each first flow path (11) extends from one end portion to another end portion of the first layer (10) in a direction crossing a direction of arrangement of the first flow paths (11). When a second layer (20) is viewed in the stacking direction, each second flow path (21) extends from one end portion to another end portion of the second layer (20) in a direction crossing a direction of arrangement of the second flow paths (21). Here, when the first layer (10) is viewed in the stacking direction, the first flow paths (11) have a meandering shape, and/or when the second layer (20) is viewed in the stacking direction, the second flow paths (21) have a meandering shape.
