Abstract (en)

A label for a baggage comprises a face material (301), an adhesive (302) and a liner (303). The face material is printable and the liner (303) is a plastic film liner. The liner comprises a die-cut area arranged to indicate a predetermined detachment area of the liner. The die-cut area comprises die-cut edge portions (304) along longitudinal edges of the label and a die-cut indication at the end of the predetermined detachment area arranged at edge portions of the liner transverse width direction, leaving the middle area of the liner transverse width direction free of die-cut.
