Abstract (en)  
[origin: WO2018134571A1] This disclosure relates to an inner frame blank (1) for a pack of tobacco industry products. The inner frame blank (1) is foldable to form an inner frame for holding a group of tobacco industry products. The inner frame blank (1) has a first major panel and a second major panel joined to opposing edges of a central panel (4) such that the first and second major panels are foldable relative to the central panel to form opposing sides of the inner frame. The inner frame blank also has an aperture (7) in at least the central panel (4) that defines an extraction opening for removing tobacco industry products from within the inner frame when the inner frame blank is folded to form the inner frame.
