Abstract (en)

[origin: CA3049290A1] The invention relates to a bridge laying device (2) for laying a bridge (3), in particular a single-piece bridge, comprising a main part (5) for arranging on a load transport vehicle (7), in particular a hook-lift vehicle, a laying arm (12) for setting down the bridge (3), and an extending device (6) for moving the laying arm (12) from a transport position into an extended placing position. The invention additionally relates to a bridge laying system (1) comprising a load transport vehicle (7), in particular a hook-lift vehicle, and a bridge laying device, (2) which can be arranged on the load transport vehicle (7), and to a method for laying a bridge (3), in particular a single-piece bridge, using a bridge laying device (2).
