Abstract (en)

This invention has disclosed an aluminous trolley case with open front, including case body and draw-bar, it is featured that, said case body is aluminous, said case body has an open in the front, said open is lower than front case body in area, said open is set with a front cover, said front cover contains a hook on the top section, said case body on the top of open contains a lock hole, said hook is matched and connected with a lock hole, and said case body is set with a unlocking disc. This invention has, through connection between double lock-hook structure on front cover and spring bolt, realized replaceable and openable front cover; through combination between hook and password lock, realized convenient locking and unlocking for front case body, which has saved time to take small articles for travel and realized convenient, fast-easy and flexible application.
