Abstract (en)

[origin: WO2018138549A1] Invention relates to spring mattresses, especially to spring mattresses with a side stitching arrangements. The side stitching arrangement comprising a plurality of side stitches, wherein the stitch comprises a sewing thread, which forms a loop between the cover and the third metal hoop tightening said cover to the third metal hoop and to the outer side of the board. The invention also relates to methods for side stitching of mattresses.
