Abstract (en)
[origin: WO2018141331A1] The invention relates to a device (10) for supporting a hard plastic shell (12) with a carrying handle (24), such as a baby carrier (20) or a child seat for infants, consisting of a waist belt (14) having a securing means (28), wherein the waist belt (14) is worn in the region around the waist of a wearer (18), and wherein the hard plastic shell (12) is configured such that it can be secured to the securing means (28) of the waist belt (14) in order to support the load. The invention also relates to a hard plastic shell (12) having a carrying handle (24), such as a baby carrier or a child seat for infants, for a device (10) of this type.
