Abstract (en)

[origin: EP3578488A1] A coiled tape material guiding machine, comprising a base (10), and a material guiding roller group (301) disposed on the base; the coiled tape material guiding machine further comprising a material guiding portion which is catered for an extending section (501) of a coiled tape (50) so as to guide the extending section (501) to enter, along the material guiding portion, into the material guiding roller group (301). Further provided is a guiding method for coiled tape material. Compared with a manual guiding mode in the prior art, the coiled tape material guiding machine and the guiding method, obviously, improve efficiency, save manpower and material resources, and increase the safety factors for an operator.
