Abstract (en)
[origin: WO2018146420A1] The system comprises a shelf (5) made of a sheet of metal forming an upper panel (20), and a front face (23) provided with an external front wall (40) and with an internal front wall (41) exhibiting an internal bearing portion (42) extending in the immediate vicinity of the upper panel, an internal mounting portion (43) extending some distance away from the external front wall, and a bearing face (127) formed on the internal mounting portion; the label holder (110) comprises a mounting part (112) exhibiting an internal space (116) delimited by lateral wings (113; 114), a complementary bearing face (130) being formed on a lateral wing (114); the label holder is mounted on the front face with the external front wall and the internal front wall housed inside the internal space, the bearing face and the complementary bearing face belonging to the locking members being in contact with one another in order to lock the label holder in position.
