Abstract (en)
[origin: EP3581059A1] A luggage article 100 including an adjustable divider system 350 is provided. The luggage article 100 may include a housing 102 defining an internal storage volume 104, one or more dividers 354 dividing the internal storage volume of the housing 102 into multiple storage compartments, and an adjustment assembly 352 movably securing each of the one or more dividers 354 within the housing. The housing 102 may be defined by first 180 and second 182 shell portions hingedly connected together at a split line 184. The adjustment assembly 352 may movably secure each of the one or more dividers 354 within at least one of the first 180 and second 182 shell portions. The adjustment assembly 352 may include a ratchet mechanism 353 selectively positioning the one or more dividers 354 at a desired level within the at least one of the first 180 and second 182 shell portions.
