Abstract (en)
[origin: CA3103036A1] The present invention relates to a separating device for strapping bands (1). The separating device has a movable pressing element (4), a foot (2) having a thrust edge (3) for the strapping band (1), which can be fixed between the foot (2) and the pressing element (4), and a cutting blade (5) for severing the fixed strapping band (1). According to the invention, the pressing element (4) is designed as a punch (4), which penetrates the strapping band (1) at least in part.
