Abstract (en)

It is provided a container (10) for storing and dispensing wipes (42), comprising a mainly flat bottom sheet (12) for bordering an interior volume (20) at the bottom and a jacket sheet (14) for bordering the interior volume (20) at its lateral sides, wherein the jacket sheet (14) is sealed to the bottom sheet (12) via several, particularly at least three or four, bottom sealing strips (18), wherein the bottom sealing strips (18) protrude outwards away from the interior volume (20). Due to the flat bottom sheet (12) and the outwardly protruding bottom sealing strips (18) a falling over of the container (10) is hindered so that a facilitated handling of a container (10) for dispensing wipes (42) is enabled.
